

REMARKS

Claim Rejections

Claims 1-21 are rejected under 35 U.S.C. § 112, second paragraph.

Substitute Specification

It was felt that the most expeditious way of correcting the numerous grammatical and idiomatic inaccuracies present in the specification as filed was the preparation of a Substitute Specification. It is believed that the Substitute Specification overcomes the outstanding objections to the specification. The Substitute Specification is attached hereto and is accompanied by a marked-up copy of the original specification which indicates the changes made thereto by the Substitute Specification. No "new matter" has been added to the original disclosure by the Substitute Specification. Entry of the Substitute Specification is respectfully requested.

Abstract of the Disclosure

Applicant is submitting a substitute Abstract of the Disclosure for that originally filed with this application to more clearly describe the claimed invention. Entry of the Substitute Abstract of the Disclosure is respectfully requested.

Drawings

It is noted that no Patent Drawing Review (Form PTO-948) was received with the outstanding Office Action. Thus, Applicant must assume that the drawings are acceptable as filed.

New Claims

By this Amendment, Applicant has canceled claims 1-9 and has added new claims 10-17 to this application. It is believed that the new claims specifically set forth each element of Applicant's invention in full compliance with 35 U.S.C. § 112.

In the absence of any art cited against Applicant's original claims 1-21, it is not believed that any detailed discussion of the cited prior art is necessary.

Application No. 10/624,518

Summary

In view of the foregoing amendments and remarks, Applicant submits that this application is now in condition for allowance and such action is respectfully requested. Should any points remain in issue, which the Examiner feels could best be resolved by either a personal or a telephone interview, it is urged that Applicant's local attorney be contacted at the exchange listed below.

Respectfully submitted,

Date: November 7, 2005
